

Education and training at the IRC

The IRC contributes to teaching and training of students at Ghent University in various ways:

- **PhD training:**
 - at present, about 80 PhD students are preparing a PhD thesis in the IRC labs
 - each year, about 10 PhD degrees are obtained by IRC members
- **Master training:** each year, about 20 students graduate with a Master's degree in IRC labs
- **Other training:** each year, several students from Universities outside Belgium (in the framework of the Erasmus program) and from higher education institutions outside the University stay in the IRC labs for a stay from a few weeks to a few months
- **Teaching:** IRC members are teaching theoretical courses and organizing practicals in the Bachelor, Master and Postgraduate schools of Ghent University.
